

Compare the 25 Boroughs in Munich

Because i live in Munich now, i'm interested in the housing prices in different boroughs in Munich. There are mainly three problems i want to solve in this project:

1. Which venues are there in the 25 Boroughs?
2. Is the housing price relevant to the venues in the boroughs?
3. Predict the housing price in the 25 Boroughs in 2021

I think people who wants to move to Munich or someone who wants to buy an apartment in Munich will be interested in this project.
